PERSONAL SKILLS

LANGUAGES

SUMMARY

4 years of professional experience as a graphic and web designer, developing user-centric designs for several clients while working in cross-functional teams. Proficient in multiple design tools, prototyping, wireframing as well as user experience research and user experience design.

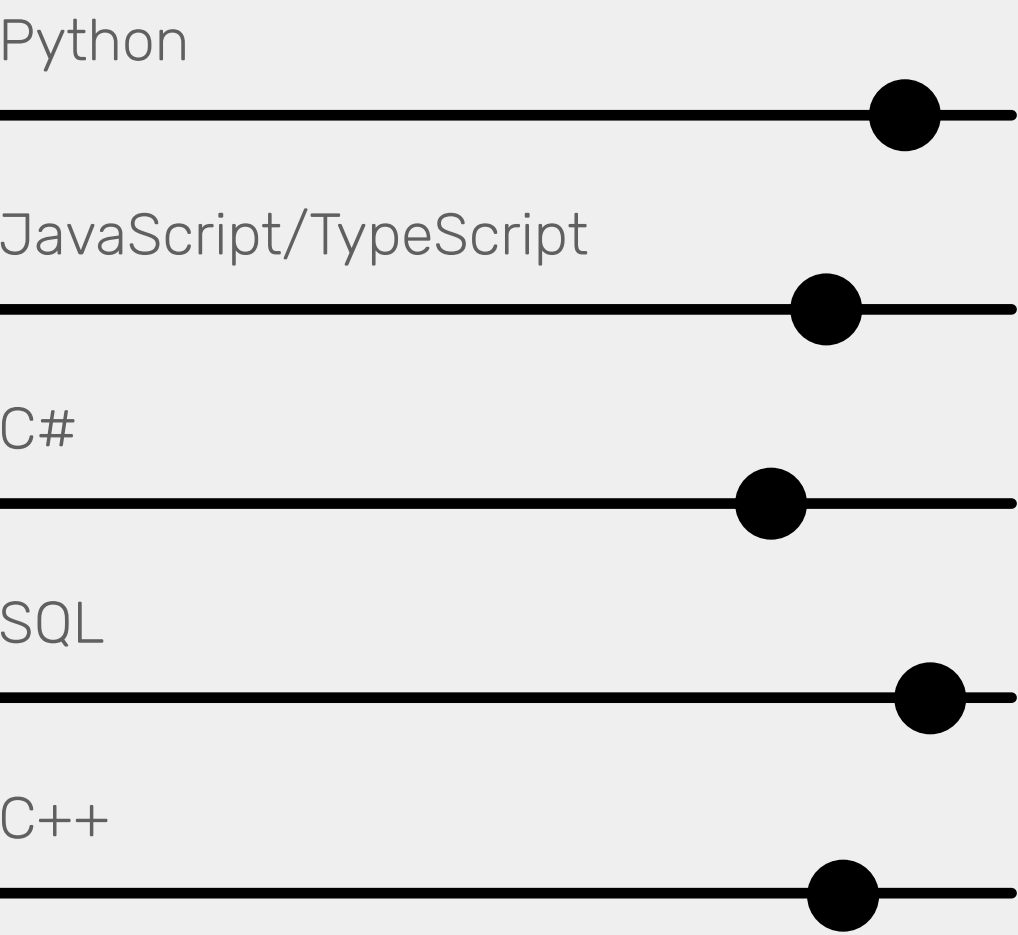

PROFESSIONAL EXPERIENCE

- Web/Graphic Designer (Jan 2019 - Dec 2021)**
National Publishing & Advertising (Muscat, Oman)
Delivered several detail oriented projects relating to, among other, multimedia content creation, print advertising campaigns and more.
 - Spearheaded the design and development of multimedia content for both digital and print advertising.
 - Designed a wide range of marketing materials, including brochures, banners, and social media content.
 - Partnered with marketing teams to conceptualize and execute compelling design strategies.
 - Led the end-to-end design process, from ideation to final execution, utilizing advanced tools such as Adobe Creative Suite.
 - Development focused on developing user-centric, responsive designs that ensure usability, align with brand guidelines, and maintain high-quality standards.
- Web Development Intern (Jun 2018 - Dec 2018)**
Kalsoft Limited (Muscat, Oman)
Worked on creating graphic elements, wireframes, and interactive prototypes, while conducting usability tests to ensure intuitive user experiences and meet project objectives.
 - Assisted in creating and designing web pages, banners, and graphic elements for client projects using Adobe Photoshop, Illustrator, and XD.
 - Collaborated with the design team to develop user-friendly websites and conducted usability testing to meet client requirements.
 - Created wireframes, mockups, and prototypes to illustrate design concepts, and provided creative input during brainstorming sessions.
 - Maintained and updated content on client websites using CMS and optimized graphics for performance and responsiveness.

EDUCATION

- Applied Mathematics for Network and Data Sciences (M.Sc.)**
Hochschule Mittweida (Mittweida, Germany)
Expected Graduation: August 2026

ANNEXURE - SELECTION OF EXECUTED PROJECTS

— National Publishing and Advertising (NPA) Website

- **Role:** Web Designer and Developer
- **Tools:** HTML, CSS, JavaScript, WordPress
- **Description:** Designed and developed a responsive, user-friendly website for National Publishing and Advertising (NPA), focusing on enhancing visual appeal and user engagement.
- **Added value:** Successfully launched the website, resulting in increased user traffic and improved dissemination of information.
- **Link:** <https://www.npa.om> (last accessed on 12.01.2025)

— Seesaw Design - Creative Agency Website

- **Role:** Frontend Developer
- **Tools:** React, GSAP, Webflow, Figma
- **Description:** Built a dynamic, visually engaging website with smooth animations and an intuitive user interface, ensuring seamless performance across devices.
- **Added value:** Enhanced brand visibility and user engagement through a high-performance, interactive site.
- **Link:** <https://www.seesaw.design> (last accessed on 08.02.2021)

— TiaraOman Events Website

- **Role:** Web Designer & Developer
- **Tools:** WordPress, PHP, MySQL
- **Description:** Designed and developed a dynamic website for Tiara Events, a full-service event management company in Muscat, Oman. The site features a modern design, detailed service offerings, and a portfolio showcasing past events, aiming to enhance user engagement and streamline client interactions.
- **Added value:** Successfully launched the website, resulting in increased client inquiries and improved online visibility for Tiara Events.
- **Link:** <https://tiaraoman.com> (last accessed on 25.01.2022)

— Casabella Oman E-Commerce Website

- **Role:** Web Developer
- **Tools:** HTML, CSS, JavaScript, WooCommerce
- **Description:** Developed a responsive, visually appealing e-commerce website for Casabella Oman, focusing on a seamless shopping experience with an easy-to-navigate product catalogue and integrated payment solutions.
- **Added value:** Delivered an enhanced digital platform, improving user engagement and contributing to a boost in online orders
- **Link:** <https://www.casabella.om> (last accessed on 08.02.2021)

— Inventory Management System - Responsive Website & Mobile App

- **Role:** UI/UX Designer
- **Tools:** Figma, Adobe XD, HTML, CSS
- **Description:** Designed a user-friendly and responsive inventory management system, including both a web platform and a mobile application. Focused on intuitive UI/UX design, ensuring seamless navigation, efficient stock tracking, and real-time inventory updates. Implemented a clean and structured interface to enhance user experience for warehouse staff and managers.
- **Added value:** Delivered a well-structured and visually appealing system, improving operational efficiency, reducing inventory errors, and streamlining stock management.

— Online Auction - Bachelor Final Year Project

- **Role:** Web & Mobile App Developer
- **Tools:** HTML, CSS, JavaScript, PHP, MySQL, Apache, Android Studio
- **Description:** Designed and developed an online auction platform with both a website and Android mobile app. Implemented features like user registration, product listings, bidding system, and admin panel. Focused on full-stack development and ensuring consistent functionality across platforms. The project emphasized clean code structure, reusability, and maintainability for future scalability.
- **Added value:** The platform was praised for its clean UI, smooth functionality, and reliability. It demonstrated my skills in building end-to-end solutions and integrating web and mobile technologies.
- **Documentation:** Provided an auction platform to the university for local distribution and further research.
